

Manufacturing Industrial, Centrifugal, & High Pressure Fans & Blowers

Fans & Blowers Built for Industrial Applications...

- Standard and custom designs
- Material handling
- Abrasive airstream
- Corrosive gasses
- Alloy construction
- Special metal finishes for dairy and pharmaceutical
- Clean air ventilation and supply
- Spark resistant, explosion proof
- Special coatings and linings
- Temperatures to 1200F; flows to 350,000 CFM; pressure to 140" W.G.

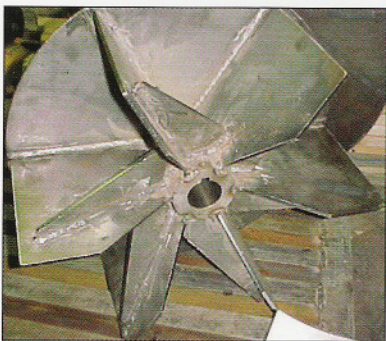

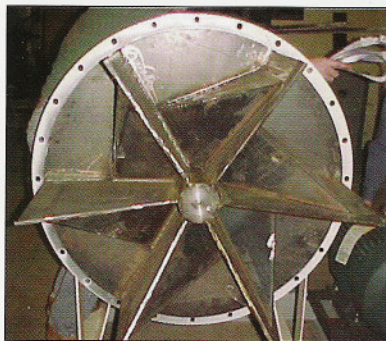

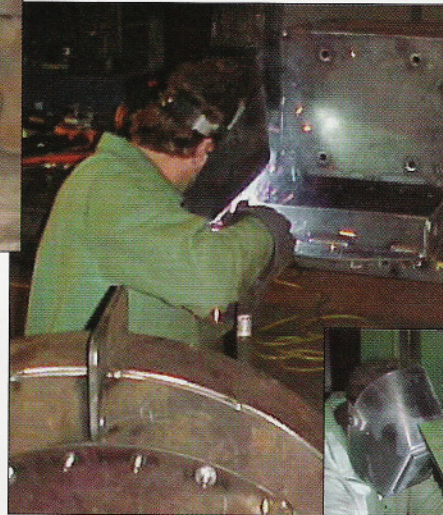

...Built as if we own, use, and maintain them.

- AMCA tested and rated
- AWS certified fabricators
- 2 coat standard paint process; custom paint per YOUR specifications
- Gasket seal ALL bolted connections
- Relube bearings without removing shaft guard
